

```
1  #include <stdio.h>
2      int main() {
3          int i;
4          char b[100];
5          printf("Enter the string:");
6          //enter input string
7          for(i=0;i<20;i++)
8              //here string can take only 20 elements but you can declare your own size
9              scanf("%c",&b[i]);
10
11          for(i=0;i<20;i++)
12              if(b[i]!="\n")
13                  printf("%c",b[i]);
14
15          return 0;
16      }
```
